MRO As-a-Service

Plug into SDI’s 45 years of market intelligence, deep knowledge of MRO and manufacturing processes, proprietary cloud-based technology and analytics... as-a-service.

Connect to any component of the value chain with MRO As-a-Service and immediately impact your key business value levers.

Simplicity
As-a-Service is all about simplifying – removing unnecessary complexity, poor processes and manual intervention for a nimbler way of operating.

Speed
It’s about flexibility and speed-to-result – bringing service, processes, systems, MRO-specific technology and expertise together into one ecosystem.

This means more agile and adaptable business outcomes – to better serve your customers.

Focus
MRO As-a-service is also about prioritizing where to focus investments to achieve maximum benefit for your business and impact business outcomes.

Step by step
SDI’s MRO As-a-Service sets you on a journey towards process excellence and Enterprise MRO in an easier, step-by-step approach that’s less disruptive to your operations.

The shift is on
As-a-Service is the ideal mechanism to shift your MRO from a category procurement event to a core-enabling business process able to impact reliability, overall equipment effectiveness, managing risk, and improving total cost of ownership.

Get connected
The difference between MRO As-a-Service and other point solution providers? SDI connects all the components of the MRO supply chain, so no matter where you plug in, you can expand your program to receive the full value of a more connected enterprise.

SDI
MRO for a more connected enterprise
